Subject: Microsoft Settlement - Not in Favor

I am a computer professional who has been a user of all forms of software on various platforms for years. I have always felt that Microsoft abused it's position in the marketplace in various ways, and was happy to see action taken by the government to document and curtail this behavior. Unfortunately, my opinion of the proposed settlement is that it will do little or nothing to curb Microsoft's core behavior. It may make it harder for them abuse monopoly power in a few specific segments of the market defined in the settlement, but it will not make it impossible, and does nothing to curtail this behavior in other areas.

Please register me as a citizen NOT IN FAVOR of the proposed settlemt agreement.

Thank you for your time.
